- Highly effective on urine stains and odours
- Can be used for pet stains on artificial grass

AREAS OF USE

ENVIRONMENTAL

HOW TO USE

General Cleaning: Dilute 1:1 with tepid water

Maintenance Cleaning: Dilute 1:20 with tepid water

Shake container well before opening. Only activated by diluting with tepid (not hot) water and should be used within 3–4 hours. Dilute and sponge or brush onto contaminated area. Soiled areas need complete penetration. Cover with a damp cloth for maximum effect. Do not rinse. Allow to dry slowly. Pour a little directly into sink outlets to combat odours and blockages. Leave to work overnight. Do not spray.
