P-Wave is an advanced urinal deodorising solution that combines long-lasting fragrance with hygienic performance. Its design promotes a cleaner washroom experience while incorporating beneficial bacteria to help neutralise odours at the source. With low VOCs and biodegradable materials, it offers an environmentally responsible option without compromising effectiveness.

- Delivers up to 30 days of high-intensity fragrance, with up to 5x greater scent performance than comparable products
- Angled bristle design reduces splashback, helping maintain cleaner and drier surroundings
- Compatible with waterless urinals and bio blocks for versatile use
- Double-sided design ensures correct and easy installation every time

SUSTAINABLE BENEFITS

- Recyclable
- Biodegradable
