

Your How-To Guide

SCREWING A MOP & HANDLE TOGETHER

Follow these 5 simple steps

SCAN HERE

To watch the how-to video

1. Find the screw hole on the mop head

This is where the handle connects.

2. Insert the mop handle

Push the threaded end into the screw hole and line up so the threads "catch".

3. Twist the handle clockwise

Keep turning to screw it in.

4. Twist until it feels tight

Stop when the handle feels firmly attached.

5. Check it's secure

Give it a gentle shake to make sure it doesn't wobble
